DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03 July 2006 has been entered.

Allowable Subject Matter

2. Claims 1-3 are allowed.

3. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the syringe pump having a flange attaching section where the movable section is adjustable around a rotational axis extending parallel to the flange supporting section where the flange section of a syringe barrel would be located between the movable section and the flange supporting section and a flange attaching operation section that causes the rotation of the movable section (claim 1); and the syringe pump having a barrel pressing section pressing the barrel against the barrel supporting section and having a differential section for instructing the barrel pressing section to execute the pressing after the approaching of the movable section is ended (claim 3) in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
